

## Preliminary Step – Setup an Internet Connection (WIFI):

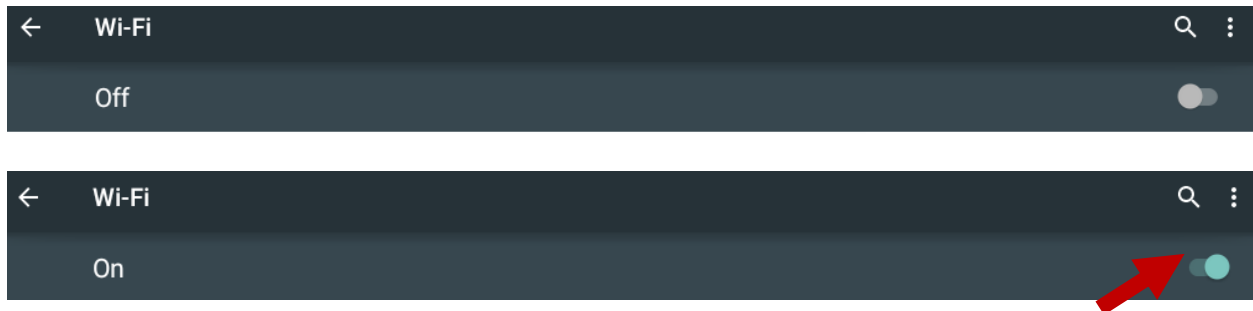

Open your Android Settings menu:

Select the WIFI option:

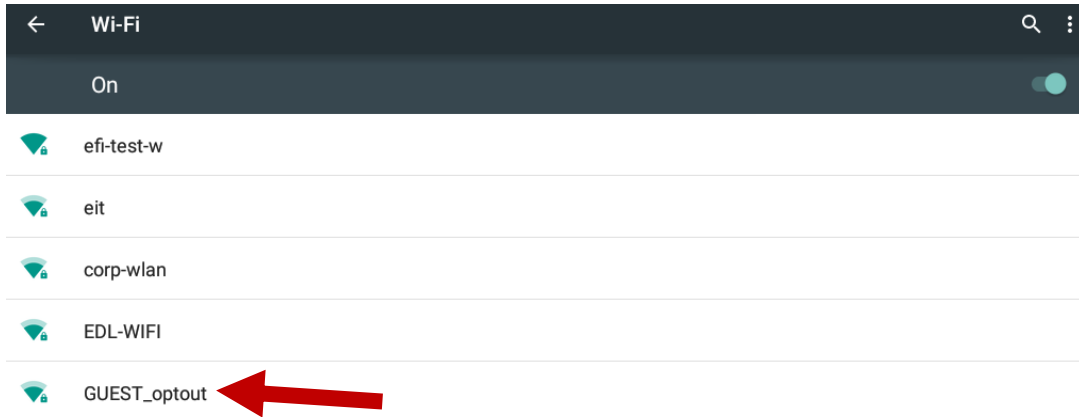

If the WIFI is OFF, switch it ON.

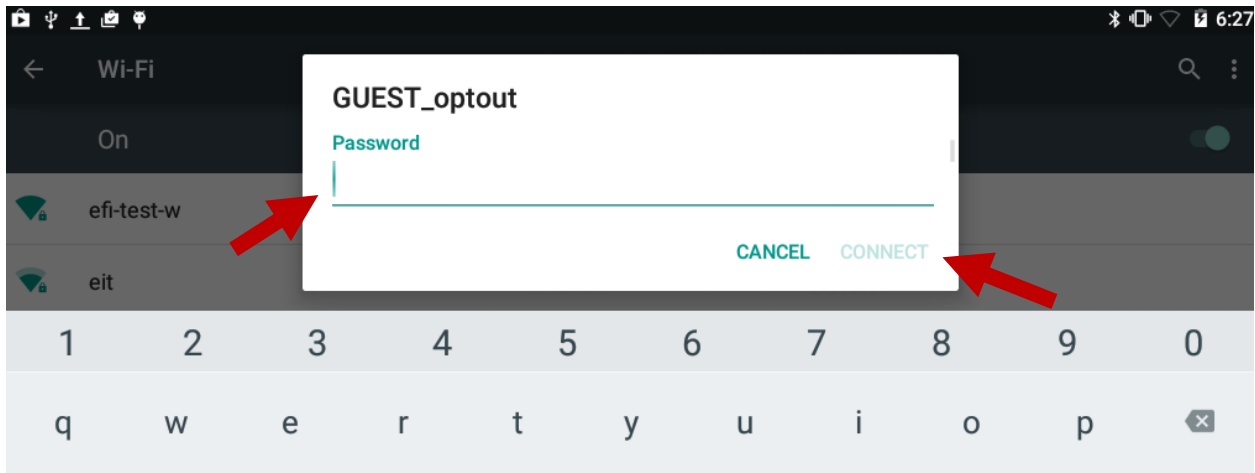

The Android Device will now search for an available WIFI Connection. You should see a list of available networks near you. Select the network you want to connect to. In this example, we're connecting to the network: **GUEST\_optout**

E-Tuner App – Preliminary Setup – WIFI Setup (2016-8-24)

**Enter the network password.** Use the on-screen keyboard to type your password. Press **“Connect”** when you are done.

If everything is correct, your Android Device should now be connected to a WIFI network:
